Overview

BEC Systems is proud to introduce ZONE. Framed on 3 sides using lightly proportioned bespoke aluminium extrusions, ZONE's clean, crisp, angular design has been consciously conceived to reflect the latest trends in office furniture.

The use of intelligently designed aluminium extrusions ensures that ZONE screens will integrate with the TRIO RANGE. The ZONE product family includes plain fabric screens with two toprail options, a triple toolbar option, wave and arc top versions, and part or fully glazed configurations.

Thoughtful design, clever engineering, beautiful build quality and competitive prices ensure that ZONE screens can be confidently specified for use within the full hierarchy of office interiors.

T1 and T2 screens in the ZONE range are framed with robust aluminium extruded profiles on 3 sides, powder coated to match the desk frames and cleverly designed to include multiple features for linking and accessorizing. T1 screens have an integral hanging facility within the top rail, and the addition of the triple toolbar on T2 enables flat screen monitor arms to be mounted. Screens include a linking strip as standard, which doubles as an end of run trim, and linking posts are available to link screens together at 90 and 120 degrees, as well as a trim mounted stabilising foot if required. T5 & T6 screens have a PVC top rail.

ZONE screens are pinnable as standard.

ZONE

- 30mm screen thickness
- Aluminium frame on 3 sides - T1 and T2
- Integral hanging facility - T1 and T2
- PVC toprail on T5 & T6
- T2 Toolbar option
- T3 Part Glazed version
- T8 Fully Glazed version
- Huge range of colours available
- Crisp, clean design
- Competitively priced

Zone Type 1 - Aluminium Toprail Screen

Features

- 30mm screen thickness
- Robust aluminium extruded frame
- Straight top screen profile
- Integral linking strip included
- Superior build quality
- Lightweight construction
- Trim mounted stabilising foot available
- Incredible value for money
- Epoxy powder coated frame to match desk

Add suffix fabric code
e.g. '-LTH49'
